

# SOPHia: Science Outreach to Promote Physics

The SOPHia project aims to encourage female students to take Physics as one of their Leaving Certificate subjects

## Teacher Showcase

**A one day showcase event aimed at supporting teachers to encourage diversity in physics, University of Limerick, Saturday November 23rd 2019**

- **Aimed at primary teachers, post-primary teachers who teach physics, but may not be specialists, physics teachers, and career guidance teachers.**
- **The Institute of Physics, industry representatives, UL physicists and STEM champions will exhibit and give talks about how teachers can act to encourage females, and males, to consider physics as a subject and career option.**
- **A toolkit for supporting female students in physics for teachers will be provided for participants.**
- **Lunch and refreshments provided for participants**
